The 116 Clique is back with the Groundbreaking new album where rap and the bible collide!

Beats, Rhymes, and the Scriptures... They mashed them together to create 13 Letters, a hip hop overview of Paul's letters in the New Testament. Ever wish you had a better understanding of some of the Bible? Now you have a tool that can help you grasp it! Each track breaks down a different book that Paul wrote!

Featuring your favorite artists and super hot production, press play on this CD and get themes, verses, cultural context and more brought to life through music! Not only do you get the 13 Letters dissected over beats, but also included on the album are 5 bonus tracks of brand new material.

Featured Artists include: Lecrae, Tedashii, Sho Baraka, Trip Lee, Json, Flame, Shai Linne, 1-Lyfe, and Dillon Chase. Producers: Tony Stone, NAB, Numinus, and more! Reach Records will release the album May 20th, below is the track listing.
