End Of Earth Records announces the re-release of the rare, yet classic compilation, To The Ends Of The Earth Vol 1. This compilation features hard to find songs by Mars III, Phonetic Composition, Sev Statik, Future Shock, The Foundation (Dokument & Jerms from Tunnel Rats). Guest features by VexDaVortex, Flynn from LA Symphony, Jurny, and Soup the Chemist. This album features production by Freddie Bruno, Ajax Starglider, JB, Harry Krum, Illtrip and Flynn. This is a must have disc for any true hiphop fan. Most importantly, proceeds of this project go towards supporting global evangelism through E3 Partners (www.e3partners.org) and Ravi Zacharias International Ministries (www.rzim.org). Be on the lookout for Volume 2. with songs by Soul P., Braille, Scribbling Idiots, and many more. Album street date is to be announced, but it's coming out soon.
