Sony launched their new tablet, the Xperia Tablet S. On Sony products such as their laptops, they preload them with 25 - 50 songs for free. Syntax Distribution landed a handful of Christian Hip Hop tracks on the new Xperia Tablet. Aside from Lecrae and a few others making a real impact in mainstream media, Syntax Distribution is constantly doing so behind the scene's for the labels they represent. Check out Theory Hazit, Kaboose, Jeremiah Bonds, Young Chozen, Mark J, and MaxOne - all Christian Hip Hop songs - on the new Xperia Tablet S.
