Rhema Soul, the group that brought you 'Worn Soles,' 'Dope Beats & Good News Vol.1,' 'Finger Prints' and 'Red' is working relentlessly on the second installment to the 'Dope Beats & Good News' series. The recent momentum has been breathtaking for the South Florida group; they have recently acquired major radio play for their single "Stop the World from Spinning" featuring Shonlock, on playlists with artists like tobyMac, Relient K and Swichfoot.

The trio have also been touring consistently in support of their latest album 'Red.' 'Dope Beats & Good News Vol.2' should add to their recent buzz and continue to expand their fanbase. G-Styles, one of the most creative and noteworthy producers in Christian Hip Hop will be collaborating with Rhema Soul on the new project. You might remember G-Styles from his stellar production on projects like Rhema Soul's 'Dope Beats Good News Vol.1' and 'Fingerprints,' Trip Lee's '20/20' and 'The Good Life,' and Lecrae's 'Rebel.'
